

RepairLink Comprehensive Knowledge Base - Volume 1

1. Introduction to RepairLink

Slogan: "Mat Feko, Fix Karo."

RepairLink is a community-driven platform built for a circular economy. Instead of throwing away a broken mixer or a torn shoe, RepairLink instantly connects you with verified local artisans (kaarigars) capable of fixing it.

Target Demographic: 18-27 urban demographic in Delhi-NCR, who are time-poor, digitally native, and sustainability-conscious, yet constrained by reality.

Core Service Area: North Delhi, South Delhi, East Delhi.

Platform Type: Hyperlocal aggregator platform mediating trust and logistics between skilled local workers and busy urbanites.

The Three Core Frictions we solve:

1. The Discovery Gap: Users don't know where to find reliable artisans.
2. The Convenience Barrier: Users lack the time to drop off and pick up items.
3. The Trust Deficit: Formal trust infrastructure does not exist in this sector.

2. Comprehensive Feature Set

- Robust Security: Mitigated XSS vulnerabilities by escaping user-generated data across map popups and detail panels.
- Premium UI/UX Overhaul: Implemented elegant glassmorphism effects, smooth hover animations, and a unified pastel mesh gradient background.
- Reliable AI Integration: Deployed a fully responsive, Streamlit-based AI chatbot accessible across all pages.
- Mobile-Optimized Navigation: Redesigned scrollable sidebars in dashboards.
- Enhanced Admin Analytics: Added dynamic tracking of new page visits, live Premium user counts, and automated total revenue calculations.
- Advanced Order Management: Introduced intuitive Kaarigar rating prompts upon order completion.

3. Eco-Gamification System & Rewards

Eco-Gamification System: Users earn "Waste Points" for every completed repair, unlocking progressive levels.

The levels are:

- Eco-Beginner
- Eco-Warrior
- Eco-Champion
- Eco-Master

Unlockable Badges: Interactive UI badges unlock based on achievements:

- Early Adopter
- First Repair
- Eco-Saver

4. Platform Pricing & Fees

RepairLink operates on a transparent, dynamic up-front connection fee model. We do not take a cut from the artisan's labor. Users pay a small connection fee to view the exact map coordinates and

contact details of the artisan.

Tiered Connection Fees (Premium Access):

- Cobbler: Rs. 9
- Locksmith / Tailor: Rs. 19
- Appliance / Mechanic: Rs. 39

General Repair Estimates (Actual costs negotiated with Artisan):

- Laptops / PCs: Screen (Rs. 3k-4.5k), Battery (Rs. 1.8k-2.8k)
- Mobiles: Screen (Rs. 1.6k-3.4k), Battery (Rs. 1.1k-1.8k)
- Shoes, Bags & Clothes: Rs. 100 - Rs. 300

5. Kaarigar (Artisan) Information

Kaarigar Engagement Suite: Dedicated tabs for Kaarigars to track Earnings, read Reviews, and access Help & Support directly from their KaarigarDashboard.

Interactive Kaarigar Profile Mapping: Kaarigars can drop pins on an embedded Leaflet Map or use 1-click Auto-Detect GPS to update their storefront locations securely.

Partner Onboarding:

How can I become a RepairLink certified technician?

You can apply through our Partner Portal. We require a minimum of 2 years of verifiable experience and passing our standard assessment test. All technicians are background-checked and parts are sourced from verified OEMs where possible to uphold our rigorous Trust Layer.

6. User Dashboard & Map Experience

Geo-Fenced Discovery: Utilizes Leaflet JS & CARTO Voyager tiles with an Inverted Polygon Mask to highlight the active service area (North Delhi), dimming out unserviceable regions.

Privacy-First Architecture: Contact numbers and sensitive data are strictly masked from public view and accessible only through authorized premium requests to prevent data scraping.

Bilingual Accessibility: Instant English to Hindi localization toggle.

7. Theme Song & Culture

We believe fixing things shouldn't be boring! RepairLink has its very own custom-produced theme song. You can listen to our exclusive track on the About Us page of our live website.

8. Frequently Asked Questions (FAQ)

Q: What devices do you repair?

A: We repair all major electronics including smartphones, laptops, tablets, and smart home appliances, in addition to our core artisan categories (shoes, bags, clothing).

Q: How long does a typical repair take?

A: Most smartphone screen and battery replacements take under 2 hours. Laptops and complex repairs usually take 1-3 business days. Artisan repairs depend on the specific job but are typically completed within 24-48 hours.

Q: Do you offer a warranty on repairs?

A: Yes, we provide a 90-day warranty on all parts and labor for every repair completed through RepairLink.

Q: What happens if an artisan cannot fix my item?

A: If an artisan determines an item is beyond repair, your connection fee is refunded, and we will assist in safely recycling the item through our B2B e-waste partners.

Q: Is my payment secure?

A: Yes, all Premium connection fee payments are handled securely through verified UPI gateways and tracked in your User Dashboard.

Q: Can I negotiate prices with the Kaarigar?

A: Absolutely. The repair estimates provided on our Pricing page are guidelines. Final labor and parts costs are agreed upon directly between you and the Kaarigar.

9. The Trust Layer

The Trust Layer is our proprietary system for ensuring quality. It includes:

- Mandatory before/after photo verifications.
- Live turnaround badges.
- Strict Role-Based Access Control (RBAC).

10. Contact and Support

Users can reach us via our Contact Page ([Contact.html](#)) or by chatting with our AI Support Assistant. For immediate escalation, users can raise a support ticket directly from their User Dashboard.

RepairLink Comprehensive Knowledge Base - Volume 2

RepairLink Comprehensive Knowledge Base - Volume 7

1. Introduction to RepairLink

Slogan: "Mat Feko, Fix Karo."

RepairLink is a community-driven platform built for a circular economy. Instead of throwing away a broken mixer or a torn shoe, RepairLink instantly connects you with verified local artisans (kaarigars) capable of fixing it.

Target Demographic: 18-27 urban demographic in Delhi-NCR, who are time-poor, digitally native, and sustainability-conscious, yet constrained by reality.

Core Service Area: North Delhi, South Delhi, East Delhi.

Platform Type: Hyperlocal aggregator platform mediating trust and logistics between skilled local workers and busy urbanites.

The Three Core Frictions we solve:

1. The Discovery Gap: Users don't know where to find reliable artisans.
2. The Convenience Barrier: Users lack the time to drop off and pick up items.
3. The Trust Deficit: Formal trust infrastructure does not exist in this sector.

2. Comprehensive Feature Set

- Robust Security: Mitigated XSS vulnerabilities by escaping user-generated data across map popups and detail panels.
- Premium UI/UX Overhaul: Implemented elegant glassmorphism effects, smooth hover animations, and a unified pastel mesh gradient background.
- Reliable AI Integration: Deployed a fully responsive, Streamlit-based AI chatbot accessible across all pages.
- Mobile-Optimized Navigation: Redesigned scrollable sidebars in dashboards.
- Enhanced Admin Analytics: Added dynamic tracking of new page visits, live Premium user counts, and automated total revenue calculations.
- Advanced Order Management: Introduced intuitive Kaarigar rating prompts upon order completion.

3. Eco-Gamification System & Rewards

Eco-Gamification System: Users earn "Waste Points" for every completed repair, unlocking progressive levels.

The levels are:

- Eco-Beginner
- Eco-Warrior
- Eco-Champion
- Eco-Master

Unlockable Badges: Interactive UI badges unlock based on achievements:

- Early Adopter
- First Repair
- Eco-Saver

4. Platform Pricing & Fees

RepairLink operates on a transparent, dynamic up-front connection fee model. We do not take a cut from the artisan's labor. Users pay a small connection fee to view the exact map coordinates and

contact details of the artisan.

Tiered Connection Fees (Premium Access):

- Cobbler: Rs. 9
- Locksmith / Tailor: Rs. 19
- Appliance / Mechanic: Rs. 39

General Repair Estimates (Actual costs negotiated with Artisan):

- Laptops / PCs: Screen (Rs. 3k-4.5k), Battery (Rs. 1.8k-2.8k)
- Mobiles: Screen (Rs. 1.6k-3.4k), Battery (Rs. 1.1k-1.8k)
- Shoes, Bags & Clothes: Rs. 100 - Rs. 300

5. Kaarigar (Artisan) Information

Kaarigar Engagement Suite: Dedicated tabs for Kaarigars to track Earnings, read Reviews, and access Help & Support directly from their KaarigarDashboard.

Interactive Kaarigar Profile Mapping: Kaarigars can drop pins on an embedded Leaflet Map or use 1-click Auto-Detect GPS to update their storefront locations securely.

Partner Onboarding:

How can I become a RepairLink certified technician?

You can apply through our Partner Portal. We require a minimum of 2 years of verifiable experience and passing our standard assessment test. All technicians are background-checked and parts are sourced from verified OEMs where possible to uphold our rigorous Trust Layer.

6. User Dashboard & Map Experience

Geo-Fenced Discovery: Utilizes Leaflet JS & CARTO Voyager tiles with an Inverted Polygon Mask to highlight the active service area (North Delhi), dimming out unserviceable regions.

Privacy-First Architecture: Contact numbers and sensitive data are strictly masked from public view and accessible only through authorized premium requests to prevent data scraping.

Bilingual Accessibility: Instant English to Hindi localization toggle.

7. Theme Song & Culture

We believe fixing things shouldn't be boring! RepairLink has its very own custom-produced theme song. You can listen to our exclusive track on the About Us page of our live website.

8. Frequently Asked Questions (FAQ)

Q: What devices do you repair?

A: We repair all major electronics including smartphones, laptops, tablets, and smart home appliances, in addition to our core artisan categories (shoes, bags, clothing).

Q: How long does a typical repair take?

A: Most smartphone screen and battery replacements take under 2 hours. Laptops and complex repairs usually take 1-3 business days. Artisan repairs depend on the specific job but are typically completed within 24-48 hours.

Q: Do you offer a warranty on repairs?

A: Yes, we provide a 90-day warranty on all parts and labor for every repair completed through RepairLink.

Q: What happens if an artisan cannot fix my item?

A: If an artisan determines an item is beyond repair, your connection fee is refunded, and we will assist in safely recycling the item through our B2B e-waste partners.

Q: Is my payment secure?

A: Yes, all Premium connection fee payments are handled securely through verified UPI gateways and tracked in your User Dashboard.

Q: Can I negotiate prices with the Kaarigar?

A: Absolutely. The repair estimates provided on our Pricing page are guidelines. Final labor and parts costs are agreed upon directly between you and the Kaarigar.

9. The Trust Layer

The Trust Layer is our proprietary system for ensuring quality. It includes:

- Mandatory before/after photo verifications.
- Live turnaround badges.
- Strict Role-Based Access Control (RBAC).

10. Contact and Support

Users can reach us via our Contact Page ([Contact.html](#)) or by chatting with our AI Support Assistant. For immediate escalation, users can raise a support ticket directly from their User Dashboard.

A: Absolutely. The repair estimates provided on our Pricing page are guidelines. Final labor and parts costs are agreed upon directly between you and the Kaarigar.

9. The Trust Layer

The Trust Layer is our proprietary system for ensuring quality. It includes:

- Mandatory before/after photo verifications.
- Live turnaround badges.
- Strict Role-Based Access Control (RBAC).

10. Contact and Support

Users can reach us via our Contact Page ([Contact.html](#)) or by chatting with our AI Support Assistant. For immediate escalation, users can raise a support ticket directly from their User Dashboard.
